Specifications

Model number	JDST-6S ALL IN ONE Photo Album Machine
Max Album Size	18*18inch (48*96cm)
Cutting Size	49*49*7cm
Pressing Height	40*50*10cm
Binding Size	48*7cm
Speed	200books/days
Air Compressor	Silent Air Compressor
Max Hot Pressing Temp.	150°C
Cutter Model	490mm digital cutter
Dimention	1500x1060x1420mm
Net Weight	350 KG

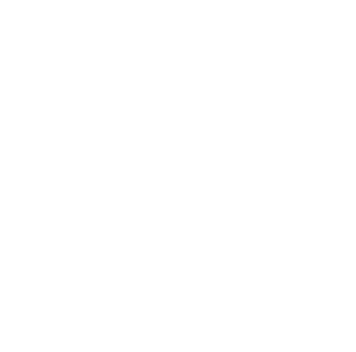

KEY POINT

Feature	Benefit
Varified Consumables Used	Various materials (hot and cold) in customized size based on your needs
Works with Hot Melt Sheets	Hot Melt sheet cheaper while more harder than adhesive PVC, and never break and environment friendly
Perfect Finished Album	More neat aligement, Album persist longer for high pressure pressing, Album edge more smooth, layflat
Powerful Cutter for Hard PVC	Hard PVC need heavy duty cutter to work longer, also cutting effect is the most direct visual effect showing
Humanized Operation Design	upright design avoids stoop labour; easy to use and operate, helping to reduce training time and increase efficiency
Durable Frame Construction	Safe in transportation, and long lasting machine working time, worthy investment to earn back more
With Training and Technical Support	Immediately to have machine create value, and learn the newest trend for the business. 3 year warranty and all life service
Practical Functions	have the most commonly used functions for bookbinding, offering a great value with low cost
Solutions Provided	we offer a full range solutions for different photo album productions with machines and consumables
Easy Maintenance	low maintenance requirements

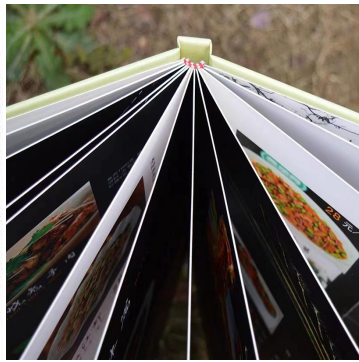

Features

Feature	Description
Pneumatic pressure system	use a pneumatic pressure system for efficient and consistent creasing, binding and pressing,
Multiple binding functions	offer a range of binding functions, including pneumatic creasing, organizing, hot and cold pressing, cutting, corner rounding and hard cover making
Quiet operation	come with a silent air compressor, which can reduce noise in the workspace
Hard cover making function	can be used to make hard covers for photo albums
High-quality materials	made from high-quality materials, including heavy-duty metal and durable components, which can help to ensure reliability and longevity

Compact size	have a compact and space-saving design, making them suitable for small workshops or home businesses
Versatility	can be used to create a variety of products, including wedding albums, baby albums, travel albums, graduation albums and etc

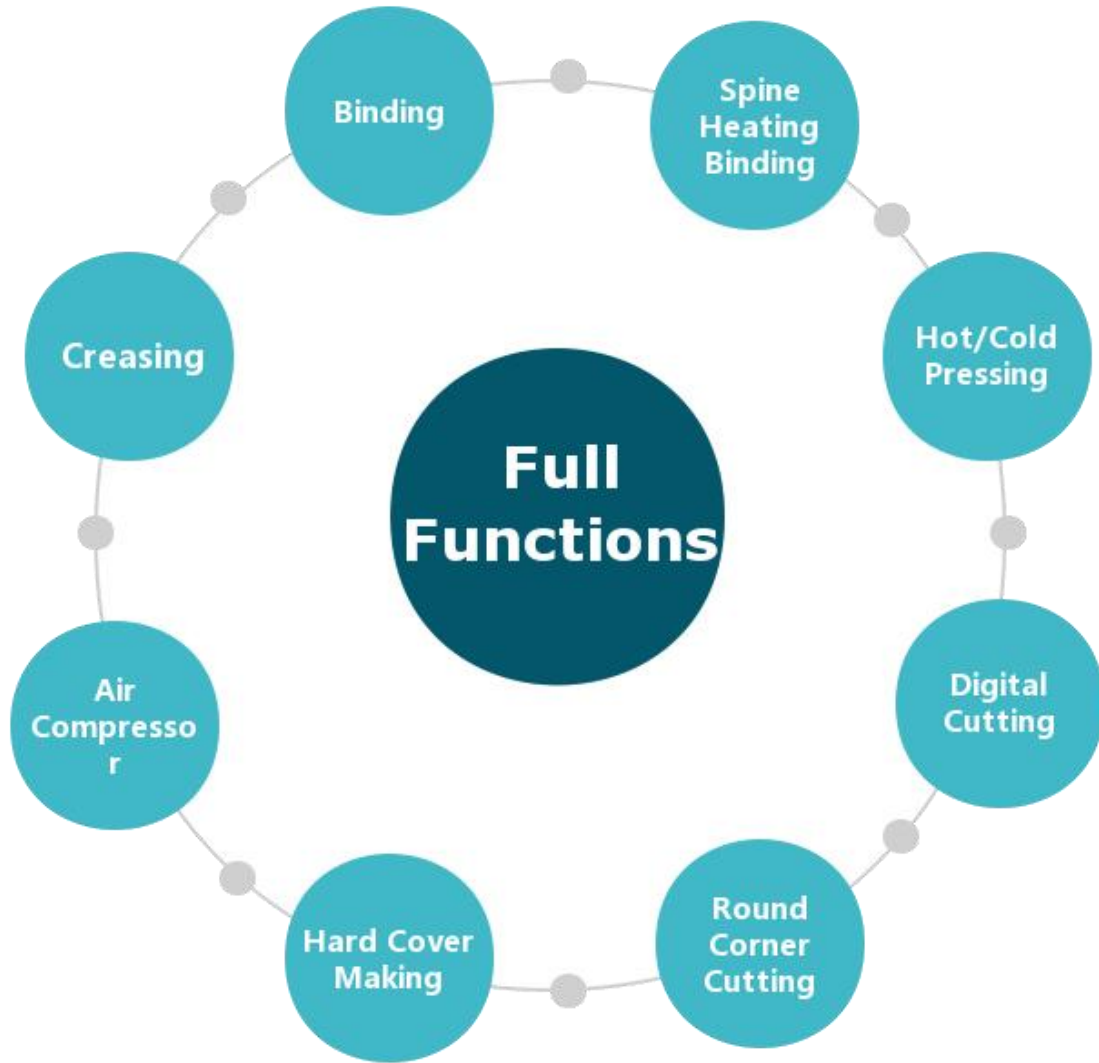

— Perfect Finished Albums

- Wedding Album
- Graduation Book
- Travel Album
- Baby Album
- Menu and etc.

Great Value of the Machine

Great Value: Full Functions

- Integrate all the functions for album making with competitive price
- easy to operate, one- person operation, saving cost on labors
- space-saving size of the machine promises a best choice for small business
- can make max 200books per day

Practical Functions for Making Albums

01 CREASING

Strong magnetic ruller enables easy and correct creasing

02 BINDING

Binding with heating element, Slide design for easy binding and 1mm gap for fully layflat. Magnetic position for neat binding.

03 PRESSING

Heavy duty alumnia board with fine heating equipped, offer high pressure to photo albums to ensure book quality and offering even heating temprature for hot melt sheets,both hot & cold pressing

04 CUTTING

Highly precise digital cutter to work longer without faulty for hard PVC album, and the edge cutting more smooth

05 ROUND CORNER

Heavy duty round corner cutter to make a beautiful coner in a perfect angle to make the album more elegant

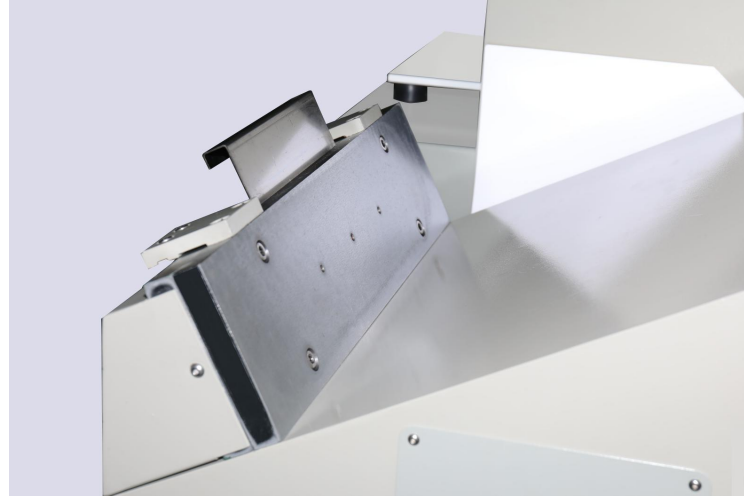

06 HARD COVER

Foldable working table, also full functions for making hard cover

Hard Cover Making

Spine Heating Binding Function

Effective & Efficient

Spine heating binding function makes the pages not easily be moved and reduce the failures of pressing effectively.

Hot Pressing Quality Ensure

Effective & Efficient

Wrapped Alumina heating board with double layer temperature keeping door, make the hot pressing for the book very evenly for a perfect effect

Efficient & Humanized Design

Upright & User-Friendly Design

- upright design avoids stoop labour, suitable for operators of any heights
 - easy to use and operate, helping to reduce training time and increase efficiency
 - manual operation is more flexible, no bothering to set up complicated parameters
-

Easy Maintenance & After Sales

Easy! Simple!After-Sales Assured!

Our engineers will provide remote assistance on all the maintenance

Universal parts can be easily sourced

01

Support Online After-sales Service by Professional Engineers

02

3 Years Warranty

03

Quick Online Assistance Service

FAQ

Question	Answer
Why the machine is of great value?	You can get full functions of photobook making with a low cost. And the production speed can reach 150-200pcs per day, which is suitable for a small or medium-size workshop.
Can the machine produce layflat albums?	Yes, the machine uses layflat technology to ensure photos are displayed seamlessly across two pages.
Is the machine customizable?	Yes, we can provide various products combo based on your needs.
What is max size of photobook?	48*96cm(open size)
Can the machine work with hot melt sheets?	Yes, the machine has effective hot press function and can work with hot melt sheets of any melting point.
Can the machine work with adhesive sheets?	Yes, the machine has effective cold press function can work with adhesive sheets, like adhesive PVC, adhesive cardboard and adhesive PET.
What is the difference between hot melt sheets and adhesive sheets?	The pages of hot melt photobook would be more stiffer and the glue won't fail easily. Adhesive sheets can be used in thicker albums and it's faster when production.
Is the binding easy to operate?	Yes, the binding part is equipped with magnetic stop and baffle for layflat gap to make binding easier.
